Vancouver, British Columbia

Consistently rated as one of the top cities in the world to live in, Vancouver is known for its scenic views and mild climate. Vancouver is also known as one of the most diverse cities in Canada with 52% of the population speaking a non-English language as their first language. The city has also hosted numerous international conferences and events, including the 2010 Winter Olympics. ¹
In the heart of the city of Vancouver is a university that has consistently been ranked among the 40 best universities in the world. Established in 1915, the University of British Columbia is currently a global centre for research and teaching. UBC has embraced innovation and challenged the status quo. Its entrepreneurial perspective encourages students, staff and faculty to challenge convention, lead discovery and explore new ways of learning. At UBC, bold thinking is given a place to develop into ideas that can change the world. 

The Vancouver campus is a spectacular location that is a must-see for any visitor to the city – where snow-capped mountains meet ocean, and breathtaking vistas greet you around every corner. The campus is home to more than 39,000 undergraduates and nearly 10,000 graduate students.
